

ADVENTURE STARTSHERE

This is about way more than a pickup truck. It's about you. Exercising your freedom. Getting outdoors, and recharging yourself with the kinds of challenging – and rewarding – activities you call fun. You've got the spirit and determination. Now, it's time to get the gear: the 2021 Ford Ranger® pickup. Backed by generations of rugged know-how, Ranger trucks are Built Ford Tough® for the freedom-seekers of America. You'll find popular interior amenities and robust new 18" wheels in the available new STX™ Special Edition Package (shown). Also new for 2021, the highly anticipated available TREMOR® Off-Road Package combines an upgraded suspension featuring FOX™ dampers tuned by Ford with aggressive off-road tires and much more to bring you the ultimate off-road Ford Ranger.

XL SUPERCREW® 4x4. Race Red. Available new STX Special Edition Package. Available and aftermarket upfit equipment. Always consult the owner's manual before off-road driving, know your terrain and trail difficulty, and use appropriate safety gear. Vehicle imagery throughout this brochure may be computer-generated and may include available and aftermarket equipment.

TOUGHNESS RUNS DEEP

There's no doubt Ranger® pickups meet legendary Built Ford Tough® standards. For starters, the backbone of every Ford Ranger is a fully boxed, high-strength-steel frame with 6 rugged crossmembers. In the available FX4™ Off-Road Package, you'll find a steel bash plate and additional skid plates that are mounted directly to the frame – so they can take the hit. Not your radiator, transfer case or steering gear. Ranger pickups also get a double-wishbone front suspension with rugged coil springs and front monotube shocks to help optimize ride and handling. Rear parabolic leaf springs help provide the right mix of ride quality, durability and capability.

Rest assured, we developed this Ranger pickup specifically for North American truck buyers. And we tortured every component – from its high-strength-steel frame to its EcoBoost[®] engine to its cloth or available leather-trimmed seating – to help ensure Ford Ranger is ready for any season and nearly any terrain.

FUNON DENANC

TURBOCHARGED 2.3L ECOBOOST.

Every Ford Ranger[®] truck comes equipped with one of the most versatile and powerful gas powertrains in the Midsize Pickups class. The 2.3L EcoBoost engine's 16-valve design features chain-driven dual overhead cams, a twinscroll turbocharger, and an overboost function that lifts output on every gear change. The 10-speed SelectShift[®] automatic transmission, featuring Ford patented technology, optimizes gear progressions and delivers smooth, quick shifting up and down the gearbox.

GETAGRIP NEW TREMOR® OFF-ROAD PACKAGE.

Turn your truck into the ultimate off-road Ranger[®] pickup in a snap. This available new package pulls all the best Ranger pickup off-road goodies together for you. Then it goes further with unique features like an off-road tuned suspension with FOX[™] dampers, plus big, aggressive tires on sturdy 17" rims. You can even add available bodyside and hood graphics.¹ With 9.7" of ground clearance, TREMOR trucks are built to take rough terrain in stride. The suspension is painstakingly tuned for off-road confidence and capability, along with a relaxed on-road ride. Spring and anti-roll bar stiffness, suspension travel rates, unique 3+1 multi-leaf rear springs, and a raised truck body are more ways TREMOR pickups earn their spot at the top of this year's Ford Ranger lineup. It's time to get your game on.
